

FUND NAME

# Multi-Asset Balanced (DD3)

## Investment Objective

The portfolio aims to deliver a combination of income and long-term capital growth, targeting a **time horizon of at least five years**.

It seeks to achieve this through diversified exposure across global capital markets, incorporating multiple asset classes. Equity allocation will typically **range between 20% and 60%**.

## Investment Strategy

The portfolio is invested in 10 to 20 collective funds across a range of investment assets and can include actively managed funds as well as passive lower cost tracking funds.

### Key risks & performance calculation

Past performance should not be taken as a reliable indicator of future performance and there are no guarantees of future returns. Investment values, and the income they produce, can fall as well as rise and your capital is at risk in this portfolio.

The performance shown is with all income reinvested and after fund costs but does not allow for Tideway's advice and custody charges which is approximately 1% p.a. This will reduce the returns shown by this amount. Performance is calculated by Financial Express and is for illustrative purposes only. Returns are based on a theoretical model portfolio which each account tracks, but does not take account of cash balances.

The portfolio contains a mix of lower and higher risk funds, higher risk funds may fall further in value and any income yields may vary from the quoted amounts which are provided by the fund managers.

The costs of individual funds may vary from the stated amount which has been provided by the fund managers. All the funds within the portfolio trade daily, however in severe market conditions the fund manager may suspend trading.

### Important information

This document is prepared for general circulation and is intended to provide information only. It refers to information which has been obtained from industry sources that we believe to be reliable and accurate at the time of writing. It should not be construed as a solicitation for the sale of any particular investment nor as investment advice and does not have regard to the specific investment objectives, financial situation, capacity for loss or specific needs of any person to whom it is presented.
